## ... a Story of Success

It took DONIC only 25 years to grow to one of the most important table tennis brands world-wide!

Excellent results are often based on simple principles. DONIC believes in quality, innovation and speed.

To be the first on the market with a new product is DONIC's tradition, e.g. EPOX, DOTEK and the SENSO technology for blades, FORMULA DONIC, SOUND SYSTEM and the FAKTIS TECHNOLOGY in rubber production, functional fabric in textiles, TWIN COMPACT and SUPER COMPACT

technology used for tables. Permanent innovations for more than 25 years have powered DONIC to one of the most renowned table tennis brands in the world.

Today we develop and test in our headquarters in Völklingen. In cooperation with the best table tennis player of all time and a lot of other top players we test our latest innovations very thoroughly.
